

Conflict Minerals Policy under Regulation (EU) 2017/821 of the European Parliament and of the Council

Seco Industries, Ltd. supports the goal of reducing violence and environmental damage in the Democratic Republic of Congo (DRC) and surrounding countries. Minerals such as gold, tungsten, tin, and tantalum are often mined under inhumane conditions and the proceeds from their sale contribute to the financing of armed conflict, which is contrary to our principles.

We actively work with our supply chain to ensure that these conflict minerals do not appear in products supplied by Seco Industries, Ltd. The same approach is also required of all suppliers throughout our supply chain.

Seco Industries, Ltd. can confirm that there is no indication that any products manufactured by us contain minerals that directly or indirectly finance armed groups in the Democratic Republic of Congo (DRC) and surrounding countries.

Our suppliers are actively required to submit a completed conflict minerals declaration using the Conflict Minerals Reporting Form (CMRT).
